### Customer Testimonials

"We find our apartment is very warm. In the cooler weather we run the heating for half an hour in the morning, and maybe another half an hour in the afternoon if it is a particularly cold day. We have a three bedroom apartment which is 1,275 sq ft and we spend £21 a month on gas. This is for both our heating and our hob. We've been living in our apartment for seven years now and we would highly recommend purchasing a home in a Fraser Homes development. Our home really is top quality."

**A Sandown Manor Resident**

"We rarely have the heating turned on for more than 1 hour per day in autumn and 2 hours a day in the winter as the house heats extremely quickly and retains heat unbelievably well. We never need to turn the heating on in spring or summer as the warmth / heat retention is so good that the house is rarely cold. Our monthly gas bill for our heating, cooking and gas fire is only £35. This is our second Fraser home and we would highly recommend to anyone as the overall experience and value for more and quality of these beautiful homes is exceptional."
